AMERICAN SUPERIORITY IN INDUSTRIAL WORLD

Blue Book Shows Remarkable Facts in Labor Affairs.

[By Telegraph to The Age.]

London, Sept. 17.—The British blue book issued in connection with the tariff discussion in the ministry deals with the tariffs of all nations, and particularly compares conditions in the United Kingdom and America.

In a table, set forth in the book, showing the ad valorem, equivalent to import duties, levied by foreign countries on the principal articles of British exports, Russia comes first with 131 per cent, the United States next with 73 per cent, and Austria follows with 35 per cent. Though Germany comes sixth, it is pointed out that her existing tariff is so effective as to be more highly protective against Great Britain than the percentage shows. The tables show that the United Kingdom is most dependent on imported wheat, the United States being wholly independent.

Dealing with the iron and steel trade, the board reports that employment has fallen off in the United Kingdom since the introduction of the American tariffs, but that very few works have actually been closed. The board points out that imports from the United States have decreased since 1900.

Question of Wages.

The question of wages and the cost of living, especially the price of food, which has figured so largely in the recent Chamberlain agitation, takes up pages and is summed up as follows: "The average level of wages in the United States is one and one-half times greater than in the United Kingdom, while in Germany wages are only two-thirds and in France three-fourths of the average prevailing in the United Kingdom." The percentage of family incomes, taking New York as the capital of the United States, is estimated (on the basis of 100 per cent for the United Kingdom) for the United States 123 per cent, for France 83 per cent and for Germany 69 per cent.

The mean weekly rate of wages in skilled trades in the United States is estimated at 179 per cent, and in the United Kingdom at 100 per cent. Members of Alfred Moseley's former commission supply a series of conflicting answers to question anent the feeding and payment of American worker. The majority incline to the belief that, allowing for the conditions, there is little difference in the United States from the United Kingdom.

TOURNAMENT FAR AWAY

Bands Fail to Grasp Opportunity to Play at The Fair.

The chance for a band tournament at the coming county fair, seems to be glimmering.

It is understood that the big bands of the community do not think the prizes large enough, and the small bands decline to enter competition for fear the big organizations will also compete. The closing day for entry is Saturday, and so far the list is a blank.

If the tournament does not materalize, Secretary Boyd has other splendid attractions that will more than fill the void.

RODE WAVES LIKE BUCKING MUSTANG

President Roosevelt Tossed About in Yacht by The Storm.

[By Telegraph to The Age.]

New York, Sept. 17.—While on the way from Oyster Bay to New York on the naval yacht Sylph, President Roosevelt passed through a terrifying wind and rainstorm, during which the vessel was in danger. Subsequently he visited the immigrant station on Ellis island, New York bay, and made a thorough inspection of the institution. Less than an hour after the Sylph had entered Long Island sound she ran into a terrific wind and rainstorm. The storm off Fort Schuyler developed into a hurricane. The Sylph, a comparatively small vessel, pitched heavily, and off Willetts Point listed sharply to starboard. The president and his guests had been forced to go below, and beyond a drenching none of them suffered inconvenience. The storm became even more severe as the vessel neared Hell Gate. The waves and wind swept the deck, making it almost impossible for the sailors to remain exposed.

In Hell Gate, a quarter of a mile off the port bow of the Sylph, a tugboat, having in tow a large three-masted schooner, was capsized by the wind and waves. She sank stern foremost, but did not settle completely out of sight for perhaps five minutes. A small boat from the tug put off with the crew, except two men, who clung to the boat until the vessel disappeared. It appeared from the Sylph that the two men were taken aboard the yawl

SERIOUS FALL FROM WHEEL

Bicycle Chain Breaks and Rider Knocked Insensible.

Will Baumgardner was thrown from his bicycle on Walnut street, Wednesday evening, and rendered unconscious by striking his head on the brick paving. He was riding home from the Novelty Advertising works where he is employed.

The chain on his bicycle broke at the top of the hill near Judge Voorhees' residence and he was thrown violently. Some of the women in the neighborhood brought out their camphor bottles and he was soon revived. His injuries are not serious.

Child Dead.

James, the three year old son of Mr. and Mrs. I. K. Miller, died at their home on Brower avenue, Wednesday. The child has been suffering with scarlet fever but membranous croup was the immediate cause of its death. Funeral services were held this afternoon at three o'clock and interment made at South Lawn cemetery.

Mrs. Lula Pace and Miss Ella Pace, of Newcomerstown, were in the city Wednesday.

STORM KING SWEEPS WHOLE ATLANTIC COAST

Terrific Wind Plays Havoc In New York City.

[By Telegraph to The Age.]

New York, Sept. 17. — The storm which swept along the Atlantic seaboard was felt in Greater New York by a fierce wind and rainstorm.

The fury of the elements wrought damage on land and water amounting to many thousands of dollars. The gale culminated in a wind velocity of 54 miles an hour. Apparently solid sheets of water drove across the city and the gauges at the weather bureau registered 1.3 inches precipitation in two hours. Then the storm subsided. Several persons were blown off fire escapes and wagons or forced against walls by the onslaught of the storm, and not a few of them are in hospitals nursing bruises and cuts. Two persons were killed in remote suburbs by broken trolley wires. The gale was especially severe at sea, causing havoc to the shipping down the bay, where many vessels were sunk or wrecked. The worst of the damage was reported from Staten island. The entire fleet of the Staten Island Yacht club at anchor was either sunk or wrecked.

An express wagon was blown over while turning the Flat Iron corner and the driver and James Billings, who was crossing the avenue, were both hurt. A score of others were injured in this neighborhood. The pilot boat Hermit was driven ashore and there was a collision between a schooner and a barkentine. A tugboat was wrecked in Hell Gate. The hurricane burst with cyclonic force on the center of the city, loosening the 250-foot spire of St. Bartholomew's Protestant Episcopal church in Madison avenue.

Windows Blown In.

The steeple of the South Congregational church in Brooklyn was also loosened. Trees were torn up and streets were littered with signs and umbrellas. Telegraph and telephone wires above ground were broken. Scores of plate-glass windows along Broadway were broken, the vicinity of the Flat Iron building at Twenty-third street suffering severely in this respect.

At Bayonne, N. J., 47 yachts were wrecked on the New York bay shore. All on board reached shore. Several yachts were sunk or wrecked in Echo bay. Fifty sloops and launches and as many small boats were driven ashore by the gale at Perth Amboy, N. J. At Red Bank, N. J., a score of yachts of the Red Bank Yacht club were wrecked. A small church was wrecked.

Extensive damage was wrought at Long Branch, N. J., part of the roof of the West End hotel being blown off. Many other buildings were damaged. The storm did an immense amount of damage at Coney Island. Boats of all descriptions were sunk and smashed to pieces. An unknown schooner sank off Plum Beach. At Asbury Park the storm was accompanied by several accidents and narrow escapes from death.

Mountain Waves Crash Ships Like Shells--Lives Lost.

[By Telegraph to The Age.]

Delaware Breakwater, Del., Sept. 17.—The southern storm which had been coming up the Atlantic coast for several days struck the Delaware capes with almost cyclonic force, and as a result at least five lives were lost. The storm lasted four hours. The wind reached a maximum velocity of 80 miles an hour and rain fell in torrents. The schooner Hattie A. Marsh, Captain J. B. Mehaffey, from Painters Point, Me., for Philadelphia with a cargo of paving stones, was caught in the terrific windstorm outside the new stone breakwater. The captain tried to anchor but the anchors did not hold, and the schooner with her dead weight of stones was dashed on the rocks of the harbor of refuge. The steam pilot boat Philadelphia went to the rescue, but succeeded in saving only Mate Norman Campbell and one seaman. Captain Mehaffey and four sailors were lost.

In the old harbor, southwest of the maritime reporting station, three schooners dragged their anchors and collided. They were the Emily F. Northam, Adeline Townsend and Sea Bird. The Sea Bird, which was a two-masted vessel, sank and her crew was rescued. The Northam lost her jib boom and her yawl stove. The Townsend lost headgear and jib boom. The barges Elmwood, Gilberton and Kalmi, laden with coal from Philadelphia for eastern points, were sunk in Delaware bay westward of the brown shoal. Their crews were rescued. The tug Spartan is reported to have sunk with its crew.

It is reported that three coal barges were sunk on the ocean off the capes and their crews were probably lost.

Damage at Atlantic City.

Atlantic City, N. J., Sept. 17.—The tropical storm which struck the New Jersey coast was one of the severest experienced for a long time. The wind, while it lasted, kept up a speed of 70 miles an hour, but the damage was not as great as was at first thought. The telegraph and telephone lines are down, and the fact that Atlantic City was cut off from communication with the outside world started wild rumors that the great resort had been entirely swept away. The loss is about $30,000.

STONE CRUSHED CONTRACTOR'S FOOT

Ed. Judd the contractor, had his foot badly crushed Wednesday while moving stone in the court house square, where he is engaged in putting in the new cement walks. Mr. Judd is able to be about today on crutches and superintend his work although his injuries cause him considerable pain.

MAYOR TOM AND RED DEVIL COMES TONIGHT AT 6

TOM L. JOHNSON.

IMMIGRANTS VISITED BY ROOSEVELT

President Takes Personal Interest in Strangers From Old World.

[By Telegraph to The Age.]

New York, Sept. 17.—President Roosevelt personally investigated the condition of the immigrants on Ellis Island and two women, a German and Russian, were recipients of favors from the nation's chief executive.

The president was met by Commissioner of Imigration William Williams and conducted to his office in the main building, where the president greeted those whom he had invited to be present. Nearly four hours were consumed by the president in his inspection of all departments of the immigration station. The president, acting on his own desire, went directly among the immigrants, with a view of ascertaining personally how they were treated. The president's interest was attracted by a comely German woman, Adele Walter, from Leutendorf, who bore in a wicker basket a tiny seven-months-old baby. After chatting a moment with her the president slipped a $5 bill into the hand of Jacob Riis to be given to the woman for her child. She nearly fainted on learning that the gift was from the president of the United States.

Appealed to President.

As the president was passing through the room in which the women who had been excluded were detained temporarily, an elderly woman, learning in some way that the president was in the room, rushed toward him. She was restrained, and as the president passed into another department cried out pitifully. The president inquired about the case and learned that the woman had been detained at the prison since July 30. On that date she, with her husband and four children, arrived on the steamer Barbarossa from Russia. The husband and one child had come over as second cabin passengers, probably because they knew they were afflicted with a disease which would bar their admission to this country from the steerage, while the woman and the other three children were steerage passengers. The husband and one child escaped from the ship.

President Roosevelt asked that the woman be brought to the commissioner's office, where he could personally investigate the case. After the facts had been developed the president announced that there could be no possible reason for detaining the woman longer, as it was evident that she and her children were financially able to care for themselves.

FORMAL OPENING OF THE LOCAL CAMPAIGN

Johnson and Clarke Both To Speak at Meeting.

TENT PITCHED ON BROWN LOT

Frost Puts Crimp in Enthusiasm But Show Will Proceed.

Tom L. Johnson, John H. Clarke, the red devil, and the toot-toot, will arrive this afternoon, from Newcomerstown, where the caravan stopped this afternoon, long enough to permit the speakers to relieve their minds.

Whether Editor Harry Ferguson, and other eminent Democrats of West Lafayette, overcame their natural terror of automobiles, and came out and waved their bandanas, or not, has not been learned at the hour of going to press.

The local Democrats having the meeting in charge, late this afternoon, learned that the caravan would arrive at 6 o'clock, and that speaking would commence in the Brown lot tent about 7:30 tonight.

Hon. John C. Adams has been drafted to preside and introduce the big guns.

It cannot yet be determined whether Mayor Tom has his menagerie with him. The single tax elephant, the three-cent kangaroo, and the home rule ostrich, are all equatorial hybrids, and it is feared that the cold snap has given them bronchitis.

BULGARIA TO GO IT ALONE

Must and Will Fight Without Powers' Aid.

[By Telegraph to The Age.]

Sofia, Bulgaria, Sept. 17.—Although no formal replies have been received to the Bulgarian government's note, it is said that the representatives of three great powers have repeated their counsels to Bulgaria to remain quiet, as in the event of a war with Turkey, Bulgaria need not expect any help in foreign quarters. It is further reported that the same diplomats visited General Petroff and endeavored to persuade him to postpone the mobilization of Bulgarian forces, but the premier declined. One of the ministerial organs, in an editorial on the government's note, says it hopes it will be the last time that the Bulgarian government will issue a note. If the powers do not intervene to restore order in Macedonia, Bulgaria will undertake with the feeble forces she possess to do what is expected of her and to give Europe the pleasure of witnessing a bloody drama in Macedonia.

A telegram from Burgas reports that a general massacre is beginning throughout the district of Losengrad. Turkish troops and Bashi-Bazouks attacked a Greek village near Losengrad, killed 25 peasants and destroyed the church, schools and many houses. The Turks attacked the village of Paoulevo and killed everybody they found on the streets.

Doan's Kidney Pills

relieve a bad back and cure it—cure every kidney and bladder disorder, from backache to complicated cases.

Mrs. Isaac Elwell, of 518 East Main street, Painesville, O., wife of a well-known contractor and builder, says: "I suffered from backache for years, was often not able to do my work, and at times was confined to my bed. In the winter of 1898 I was in poor health, run down, and the pains in my back were more severe than ever. I also suffered from distress in the stomach, could not eat, and what little food I ate did not agree with me. I was induced to try Doan's Kidney Pills, and got a box at Moodey's pharmacy. They did me more good than any other remedy I ever used, and I recommend them whenever an occasion presents itself."

LIKE A CURSE REMOVED

Awful skin disease of this woman cured in a few weeks after fifteen years' terrible affliction.

Note the ghastly despair in the photo taken before treatment.

The photograph showing the terrible condition of this lady's face before she began the use of the D. D. D. Remedy, this paper refused to publish. We have the original at our store. These pictures have convinced us that the D.D.D. Remedy works wonders.

(Case of Mrs. J. M. Daniels of Winchester, Ky.—completely cured by D. D. D. after 7 weeks' application. She had suffered fifteen years.)

See the same features—but note how different when brightened with hope and happiness, after her freedom from it all.

Reader! This is more than medicine talk. It is humanity to enlighten sufferers about this.

The most virulent skin diseases are conquered—every time—in all cases—without any exception—all cleared away in a few weeks—by the brilliantly clever new skin prescription, "D. D. D." Its work is hardly equaled by any other wonders of modern medical practice.

C. E. ANDERSON, Coshocton, O.,

Enough has been proven to us—regarding the above case and hundreds of others—to demonstrate beyond all question whatever that any of the known forms of skin disease—any eruption or breaking out—must quickly give way and disappear under the influence of this prescription (known as "D. D. D."). Cases of Eczema, Salt Rheum, Ring Worm, Psoriasis, Barber's Itch, Acne, etc., some of twenty years' standing have been cleared off and permanently cured in a few weeks. In several cases from one to three years have elapsed and there has been no returning sign of the disease. Hundreds of cases cured since the preparation has been placed on sale show no sign at all of the previous affliction, and we fully believe they are permanent cures.

C. E. ANDERSON,

Have you been—or do you know anyone who has been—in a living hell of torture with a skin disease? Dispair usually seizes those so afflicted. Many imagine it is in the blood and too subtle to cure Doctors have stood baffled and helpless against Eczema. Half of them think its worse forms are blood poison. Ninety-nine cases out of a hundred of manifestations on the skin are purely local—*SKIN* disease—not *BLOOD* disease. Healthy blooded people break out as often as any one, the blood has nothing to do with it in most cases. It is a parasite in the skin that spreads. This prescription is today completely clearing away—quickly too—and permanently curing every trace of such parasitic trouble and leaves the skin soft, healthy and perfect. Call on the above druggists and investigate the unquestionable proofs in their possession.

The prescription is sold in above drug store at $1.00 for a liberal bottle, and comes under authentic label of the D. D. D. Company of Chicago, who solely compound the prescription for druggists everywhere.

STRONGEST EVIDENCE OF FAITH.

C. E. Anderson Guarantees That Hyomei Will Cure the Worst Case of Catarrh in Coshocton, Ohio.

When one of the most reputable concerns in Coshocton guarantees that a mediceine will effect a cure or he will refund the money, it speaks volumes as to the merits of that remedy. It is in this way that C. E. Anderson is selling Hyomei, the treatment that has made so many remarkable cures of both acute and chronic catarrh in Coshocton and vicinity.

Hyomei is not a pill nor is it a liquid that has to be taken with a tablespoon or wineglass. Just breathe it by the aid of an inhaler that comes in every outfit and benefit will be seen from the first treatment.

It destroys all germ life in the air passages and lungs and enriches and purifies the blood with additional ozone. It cures catarrh of the head and throat, or of the stomach, liver and kidneys. Wherever mucous membrane contains catarrhal germs, there Hyomei will do its work of healing When using this treatment, the air you breathe will be found like that on the mountains high above the sea level, where grow balsamic trees and plants which make the air pure by giving off volatile antiseptic fragrance that is healing to the respiratory organs.

A complete Hyomei outfit costs but $1.00 and includes an inhaler, dropper and sufficient Hyomei for several weeks treatment.

Remember that if Hyomei does not cure you, C. E. Anderson will refund your money. This is a good time to cure catarrh by this natural method and prevent catarrhal colds that are so common at this season. 2

ONE COMMON TIE.

Destruction to Protection the Only Principle Uniting Johnsonites.

No matter what other differences John H. Clarke may have had with his party, he has been from first to last and at all times a free trader. His election means an ultra vote against protection on every possible occasion, that may arise in the United States senate should he be sent to be a member of that body. He was so bitter against Bryanism that his nomination over such a persistent supporter of silver and Bryan as John J. Lentz was an insult to all the Bryan followers in Ohio and all the sincere silverites. Bryan may condone it, he may even campaign with Clarke, but that does not make it any more right and is no credit to Bryan. It simply proves that "the peerless leader" is for the man that is for him and prefers support to principle.

Johnson's throw down of Lentz and courting of Bookwalter, and also of Zimmerman, too, even after he had openly declared for Clarke, only showed anew the plainest fact of all, that Johnson is for Johnson only, and any follower can expect to be betrayed by him the instant it will help Johnson.

The one common tie of all of them, however, is that of free trade. Clarke is nearly as radical as Johnson, and Johnson asked congress to sell all the custom houses. Every vote for a Johnson member of the legislature, whether on a Jones ticket or any other way, will be a vote to put Clarke, the free trader, in place of Mark Hanna, the protectionist.

HOW MANY WEEKS IN SCHOOL YEAR

Deputy County Auditor Carl Manner is puzzling his brains to figure out just how many weeks there are in a year—that is, as computed by some of the township clerks on their school reports.

"Average weeks of school in year" has been variously and wonderfully filled in by some of the clerks, one solemnly averring the average to be 240, while another goes him a little better and makes the average 422.

Auditor Lamberson and his deputy are busily engaged in tabulating the school statistics.

LOW ONE-WAY SETTLERS' RATES TO THE NORTHWEST AND CALIFORNIA.

From September 15 until November 30, 1903, the Burlington makes very low one way colonist rates to California, Oregon, Washington, Idaho, Montana. The reduction is from 25 to 40 per cent from the regular rates.

THE WAY TO GO.

The Burlington, with its strong main lines and free chair cars, best reaches the west and northwest via Denver, Billings or St. Paul.

"The Burlington-Northern Pacific Express" is the great daily through train with chair cars and tourist sleepers via Billings, Montana, to Puget Sound and intermediate points.

TO CALIFORNIA.

The Burlington's weekly personally conducted California excursions in through tourist sleepers. The route is Denver, Scenic Colorado and Salt Lake.

THE ANTIETAM ADDRESS.

In his address at Antietam today, President Roosevelt summarizes his sentiments in his usual epigrammatical manner, by stating that civic success must be attained through three cardinal principles, without which no nation can succeed, and whose place is filled by none others, no matter of what brilliancy or genius.

These cardinal civic virtues are courage, honesty and common sense. Our president, however strenuous he may be, has a happy faculty of hitting nails on the head, with blows square and telling. It is with considerable pleasure that The Age presents the more important passages of that speech made this afternoon a thousand miles away, on another page of this paper. It is a ringing patriotic speech, full of the same fervor that Teddy carried with him when he commanded his troops in front of Santiago.

Roosevelt is a man of whom the nation may well be proud, without respect to party affiliation.

He uses one word, or its equivalent in nearly every speech he makes: decency. What a lot that means in life, public or private; and how often it is overlooked in the greed for gain.

A CALL.

Republican Senatorial Convention.

The Republicans of the Eighteenth Nineteenth Senatorial Districts are requested to meet in delegate convention in the city of Cambridge, Ohio, on

Tuesday, September 29, 1903,

at 11 o'clock a. m., to place in nomination a candidate for State Senator for this district, and to transact such other business as may be lawfully brought before it. The basis of representation shall be one delegate for every one hundred votes cast for L. C. Laylin, the Republican candidate for Secretary of State in 1902, and one vote for the major fraction of one hundred, cast for the Secretary of State as shown by the vote of 1902.

This basis will give representation to each county as follows:

Coshocton	29 votes
Guernsey	38 "
Monroe	16 "
Noble	11 "
Tuscarawas	51 "

Necessary to a choice 73 votes.

Delegates to be selected in the several counties of said district in such manner as the members of the Senatorial Committee of the several counties may designate.

By order of the Senatorial Committee.

M. B. Kennedy, Chairman.
J. W. Hawkins, Secretary.

JUDGE DITTY REBELS.

The Zimmerman men are by no means disposed to condone the methods by which Tom Johnson silenced them in the Ohio Democratic state convention. Judge R. M. Ditty, of Columbus, who is one of the leaders of the anti-Johnson forces, raised his voice in angry protest because Johnson insists upon controlling the county committees. "Either Johnson's committee is an insult to the members for it carries with it the inference that they are not loyal Dembocrats, and are therefore not to be trusted in the coming campaign, or else Johnson is trying to capture the entire party organization for selfish purposes," he declares.

The Salvation Army that is storming Breathitt county may be doing the proper thing by praying for that benighted community but it would be just as well for them to keep one hand close to the pistol pocket.

Really, with all credit to Coshocton Democracy, this is rather a cool reception for their gubernatorial candidate. Perhaps Mayor Tom will doubtless ascribe the ills of the weather to Uncle Mark.

ODE TO TOM.

The following effusion is an inspiration received by a young lady in the office of Meek & Beach company this afternoon, and dashed off on the spur of the moment and a sheet of foolscap.

Blow the bugle, give the war cry!

See them hurry, in a flurry, all are gathering round..

BIG TIME HOME WEEK

Uhrichsville People to Have Much Fun at Unique Celebration.

Uhrichsville people are counting on the biggest time in the history of their town next week, September 21-27, when former residents of the old town on the Big Stillwater come flocking home for a general reunion.

It is not a street carnival. It is not a money-making scheme. From Maine to California, from the lakes to the gulf, all who have in past years made their home at Uhrichsville or in the vicinity will come back next week, if possible, to meet the friends they knew in other years.

There will be special feature every day. Monday will be given over to reception of visitors. The secretary's office will be kept open all week, and every visitor is expected to register on arrival. Wednesday there will be a grand parade of lodges, also a prize drill of uniformed bodies. Thursday will be field day, and will be given up to athletic sports. At night there will be a masquerade parade that will furnish amusement for all. Friday is school day. Arrangements have been made for features that will be pleasant to all visitors who have at any time attended the village schools. Saturday is pioneer day of which one of the features will be a grand barbecue. An ox will be roasted whole and will be served free to the people. One of the addresses on this occasion will be delivered by Hon. Simon Wolf of Washington, D. C., a resident of Uhrichsville in 1856, and who represented this government in Egypt during the Grant administration

Sunday will be given up wholly to church reunions, and the various church organizations in the town anticipate an unusually interesting time.

A number of free attractions have been rovided by the citizens for the entertainment of the visitors, and it is hoped that there will not be a dull moment during their stay in the town.

Mr. Caton's Joke

A. L. Caton is chuckling over a little joke he perpetrated Wednesday on a friend. It is a political joke, and is all the more entertaining because Mr. Caton is a dyed-in-the-wool Democrat, and his friend, a dry goods travelingman, is an ardent Republican.

The dispute of course arose over Tom Johnson's chances for governor and Mr. Caton's friend pooh-poohed the very idea. Then Mr. Caton conceived the idea of taking him over the city.

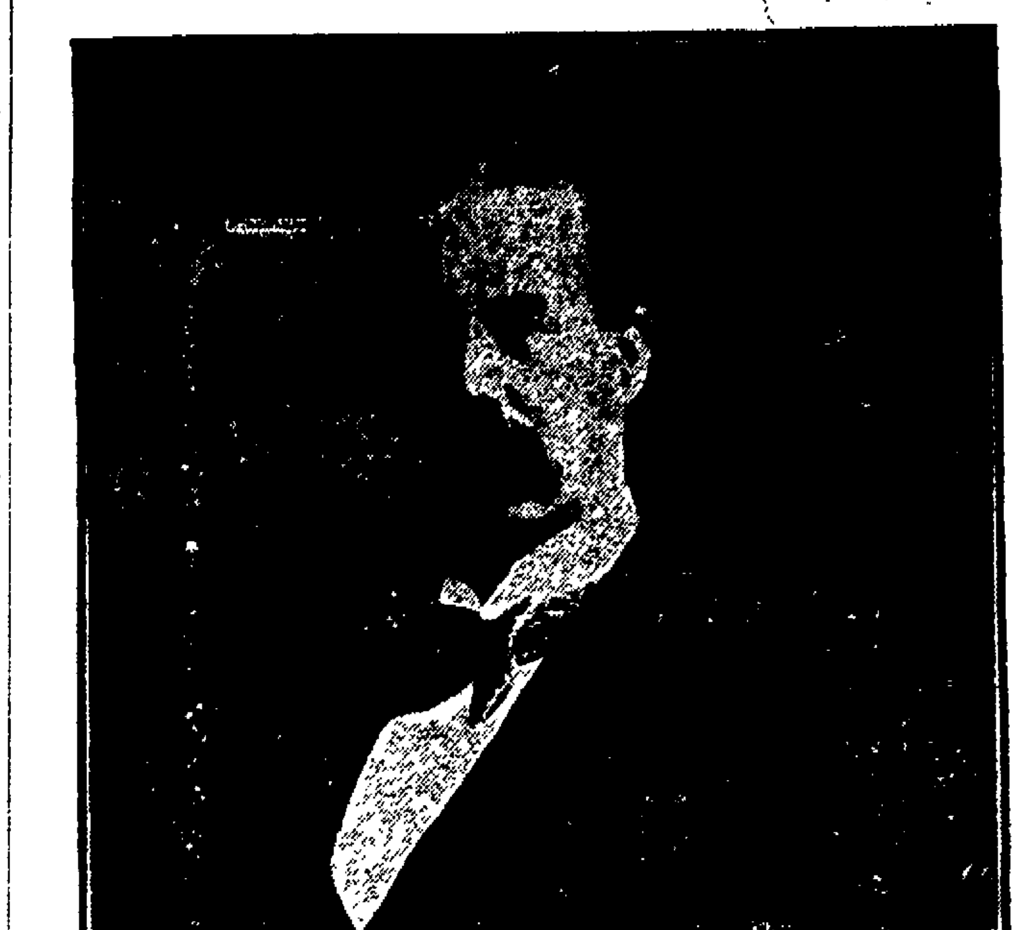

He showed him that every bank in town displayed Johnson's picture: nearly every business house, law office, shoe shop and in fact every window had the Cleveland Mayor's smiling countenance in it.

"There," said Mr. Caton with a flourish, "now you see how we are here in Ohio. We all want Johnson, all of us."

And as there was nothing on the picture to indicate that it was simply an advertisement that Mr. Johnson would speak here that night, the ardent Republican ... and swore he would never have believed it if he had not seen it himself.

SOCIETY ..CHAT..

The Woman's Club.

Mrs. H. R. McCurdy was the hostess of the Woman's club Wednesday afternoon at her home on South Fourth street. The rgular program was carried out and was as follows:

"The Story ot the God" prepared by Miss Sophie Wilson was read in her absence by Mrs. Rose Hesket Ward. "Inferior Duties," by Miss Emma Lee, "Art Treasurees in Rome" by Mrs. J. L. Rue. The day was excessively warm and the delicious punch served by the hostess was much appreciated. Mrs. Sprague was a guest of the club.

The next meeting will be held with Mrs. Ward, on Cambridge road.

Dance Committee Appointed.

At the regular meeting of the K. of P. lodge, Wednesday evening, Messrs. T. H. Wheeler, R. C. Darnes and H. B. Hunt were appointed as a committee to arrange for a series of dances for the coming season.

Historical Club..

The Historical club met Wednesday afternoon at the home of Mrs. I. J. Baker with eighteen members present, who responded to roll call with quotations. Short talks by Mrs. Olney, Mrs. Yarneil and Mrs. Johnson on "Spanish, French and English Early Explorations," were very interesting and greatly enjoyed. Miss Neldon, who was a guest of the club, played two beautiful instrumental solos which were thoroughly appreciated. Mrs. Compton followed with an intensely interesting paper on Columbus and Isabella. The last paper which was an excellent and spicy one, was well read by Mrs. D. F. Denman. The meeting adjourned until September 30, when it will assemble at the home of Mrs. J. A. Compton at Main and Second streets.

Entertained.

Robert McClintock entertained a crowd of his young friends Wednesday evening at his home on East Main street. The guests were: Misses Bessie Mizer, Celene Lembright, Cornie Randles, Edna Fisher, Andrew Mizer, Mary McDonald, Annie Hartman, Grace Smith, Madeline Marter, Maud Middleton, Jessie Miskimmens, Edith Epley, Bessie Swahey, Minnie Rogers and Nellie McClintock and Messrs. Harry Clark, Howard Layton, Frank Schleich, Charley Schoonover, Clifford Sprague, William Fisher, Daniel Crawford, Werner Bost, Rudolph Ehrich, Wilham Felton, and E. V. McClintock. The evening was very enjoyably spent with games and music. Ice cream and cake were served.

COFFEE

You buy coffee by the pound, but that is not the true way to reckon its cost. That is not the real way in which you pay for it. You pay for it by the liquid measure of the coffee pot. To secure proper strength, it may take twice as much of one kind as of another. Coffees vary. Thus, a pound of our 20c coffee has a beverage producing value equal to two pounds of ordinary coffee. This makes it the cheapest coffee in the world.

JESS WILGUS ISACKE FILES SENSATIONAL DIVORCE

Charges Husband With Cruelty and Neglect---Formerly Prominent in Coshocton Society Circles.

Jess Wilgus Isacke, through her attorney, J. C. Adams, filed a petition in probate court, this morning, asking for a divorce from Clarence E. Isacke. Mr. and Mrs. Isacke are both in New York City at present but have not been living together since June 1, 1902. They are well known here having resided in this city where Mr. Isacke was for several years employed as lithographer by the Meek & Beach company.

She states in her petition that they were married in Coshocton and that no children were born to them. For her first cause of action she says he has been guilty of gross neglect of duty, which is described in these words: "That after their said marriage they went to housekeeping in Coshocton and defendant provided plaintiff with a cozy home and for two or three years thereafter was a most kind indulgent and loving husband, and plaintiff was the recipient of every consideration and attention that a young wife could hope for.

"That after about threey ears of married life defendant began to manifest a feeling of coldness and indifference toward plaintiff and became cross and disagreeable; this disposition, as time passed by, increased in intensity, defendant gave up his job became passionately fond of the society of other women, threatened to get a divorce from plaintiff and repeatedly told plaintiff that he did not care for her any longer."

She goes on with her story in touching terms telling of how she became sick and how her husband, instead of providing medical attention was away from home cultivating the society of other women.

About two years ago he sold off everything and went to New York where she joined him. His ill treatment became more pronounced and she suffered another sick spell.

She states that before going to New York, he borrowed $500 of her mother and has never repaid it; that on June 1, 1902 he sent her back to her home in Ohio and shortly afterwards informed her he would not live with her and has not lived with her since. She has been compelled to earn her own living.

For her second cause of action she reiterates her first cause and further adds that at one time in Coshocton he struck her and that he would repeatedly tell her he was tired of her and boasted of his other girls.

She says she has tried to be a devoted wife and do every thing to win him back and exerted every means to make his home happy but her entreaties were treated with contempt.

She asks to be restored to her maiden name of Jess Wilgus. She was well known in Coshocton society. Her parents reside in Newcomerstown.

Husband Was Cruel.

Mrs. Accy E. Smith, through her attorney, T. H. Wheeler, has commenced suit in common pleas court asking for divorce from Joseph A. Smith, on the grounds of gross neglect of duty and cruelty. She states that they were married January 7, 1887 and that they have five children. On several occasions she claims he drew a revolver on her. She also states that he would often slap her and sometimes would leave her for a week or more with nothing to live on. She asks for divorce and custody of the children.

TRIFLING WITH YOUR HEALTH

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians prescribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the ***New 50 Cent Size*** and the regular $1.00 size bottles—less than a cent a dose.

Sample bottle—enough for trial, free by mail.

Newspaper As a Text Book

Prof. W. H. Lynch, of Salem, Mo., is regarded as one of the greatest authorities on newspaper statistics in the world. But this is not his greatest claim to fame. He has established in the public schools of his home town a system which has not a counterpart anywhere in the world. Under this system newspapers in a large measure take the place of the ordinary text books Friday of each week, in the branches of history, geography, literature, etc., all these being taught from the files of the press of the country. Magazines and weeklies enter into the curriculum of this extraordinary school, also, and it is said the results attained are something remarkable. In explaining the methods of his school and what led to the adoption of the newspaper, Porf. Lynch said:

"I discovered years ago that no text-book was equal to the newspaper as a means for talking knowledge of the actual, practical and up-to-date world into the school room and I introduced it.

"History, geography, civil government, algebra, chemistry and the entire academic curriculum teach only a theory of the world and its facts. The real drama of life, in its varied forms of commercial, political and social relations, must be seen and learned through the mirror of the newspaper. Let every Friday morning be devoted to the reading of the newspapers. Have all the pupils supplied with papers. No two pupils should have the same issue of the same paper, so as to prevent confusion by pupils reading the same article, so as to be thorough, and this plan will give a greater number of pupils an opportunity to recite what they have read. When a sufficient time has been given for a careful reading of some interesting article, the signal should be given to quit reading, and have all the papers folded so as to prevent the pupils from seeing the articles as read; and each pupil rises and tells the substance of what he has read—an excellent plan for securing attention and improving the memory. Thus the story of the outside world, fresh from the lives of busy and practical men and women, comes into the class room, and the lessons of real life are mingled with the dreams and poetry of the student's young heart."

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of **Mother's Friend** during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does **Mother's Friend** carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at $1.00 per bottle. Book containing valuable information free.

MOTHER'S FRIEND

The Bradfield Regulator Co., Atlanta, Ga.

The Insurance Engineering Experiment station at Boston has made its contribution to public wealth by discovering that peat is a cheaper substitute for coal, as a fuel, and that it can be had in some marshes in the eastern part of Massachusetts. When the coal fields shall be played out, and the interested railroads shall make a low rate on peat moss and the speculative capitalist shall exclude peat bogs from his ken, then peat moss may come in as a substitute for coal—but not before. Boston's genius might be profitably turned to the displacing of horses by automobiles, and the use of baled hay under draught as a fuel. The supply would be larger and the crop more certain.

Has Found a Remedy.

Berlin, Sept. 17.—Professor Loeffler of Griefswald has sent in a report to the government on the results of his investigation of the foot and mouth disease among cattle. He says that a means has been found to protect animals while in stables from contamination by the use of small doses of a serum. He advises the inoculation of all cattle bought on the market, and says if they are treated with the serum they are safe from infection.

Disorders Among Armenians.

Baku, Caucasia, Sept. 17.—Disorders among Armenians caused by the transfer of the Armenian church property to the state broke out at Baku. The troops fired on the crowd of Armenians, who retaliated with revolvers and stones. One man was killed and 20 others were wounded. Three of the latter have since died.

Three Cardinal Virtues

President Roosevelt Says Civic Success Depends Upon Courage, Honesty and Common Sense.

[By Telegraph to The Age.]

Antietam, Md., Sept. 17—President Roosevelt's speech today at the dedicatory exercises of the New Jersey monument, was a masterly one. In part it was as follows:

Governor Murphy; and you, Veterand of New Jersey; and you, men of the Grand Army, and all others here, I greet you:

I thank you of New Jersey for the monument to the troops of New Jersey who fought at Antietam, and on behalf of the nation I accept the gift. We meet to-day upon one of the great battlefields of the civil war. No other battle of the civil war lasting but one day shows as great a percentage of loss as that which occurred here upon the day on which Antietam was fought. Moreover, in its ultimate effects this battl ewas of momentous and even decisive importance for when it had ended and Lee had retreated south of the Potomac, Lincoln forthwith published that immortal paper, the preliminary declaration of emancipation; the paper which decided that the civil war, besides being a war for the preservation of the Union, should be a war for the emancipation of the slave, so that from that time onward the causes of Union and of Freedom, of national greatness and individual liberty, were one and the same.

If the issue of Antietam had been other than it was, it is probable that at least two great European powers would have recognized the independence of the Confederacy; so that you who fought here forty-one years ago have the profound satisfaction of feeling that you played well your part in one of those crises big with the fate of all mankind. You men of the Grand Army by your victory not only rendered all Americans your debtors forevermore, but you rendered all humanity your debtors.

It was because you, the men who wear the buttons of the Grand Army, triumphed in those dark years that every American now holds his head high, proud in the knowledge that he belongs to a nation whose glorious past and great present will be succeeded by an even mightier future; whereas had you failed we would all of us, North and South, East and West, be now treated by other nations at the best with contemptuous tolerance; at the worst with overbearing insolence.

There have been other wars for individual freedom. There have been other wars for national greatness. But there has never been another war in which the issues at stake were so large, looked at from either standpoint. We take just pride in the great deeds of the men of 1776, but we must keep in mind that the Revolutionary war would have been shorn of well-nigh all its results had the side of union and liberty been defeated in the civil war. In such case we should merely have added another to the lamentably long list of cases in which peoples have shown that after winning their liberty they are wholly unable to make good use of it.

It now rests with us in civil life to make good by our deeds which you who wore the blue did in the great years from '61 to '65. The patriotism, the courage, the unflinching resolution and steadfast endurance of the soldiers whose triumph was crowned at Appomattox must be supplemented on our part by civic courage, civic honesty, cool sanity, and steadfast adherence to the immutable laws of righteousness. You left us a reunited country; reunited in fact as well as in name. You left us the right of brotherhood with your gallant foes who wore the gray; right to feel pride in their courage and their high fealty to an ideal, even though they warred against the stars in their courses. You left us also the most splendid example of what brotherhood really means; for in your careers you showed in practical fashion that the only safety in our American life lies in spurning the accidental distinctions which sunder one man from another, and in paying homage to each man only because of what he essentially is; in stripping off the husks of occupation, of position, of accident, until the soul stands forth revealed, anw we know the man only because of his worth as a man.

There was no patent devise for securing victory for the forces of righteousness in civil life now. In each case the all-important factor was and is the character of the individual man. Good laws in the state like a good organization in an army, are the expressions of national character. Leaders will be developed in military and in civil life alike; and weapons and tactics change from generation to generation, as methods of acheving good government change in civic affairs; but the fundamental qualities which make for good citizenship do not change any more than the fundamental qualities which make good soldiers. In the long run in the civil war the thing that counted for more than aught else was the fact that the average American had the fighting edge; had within him the spirit which spurred him on the goal of the splendid ultimate triumph. So in achieving good government the fundamental factor must be the character of the average citizen; that average citizen's power of hatred for what is mean and base and unlovely; his fearless scorn of cowardice and his determination to war unyieldingly against the dark and sordid forces of evil.

The Continental troops who followed Washington were clad in blue and buff, and were armed with clumsy, flintlock muskets. You, who followed Grant, wore the famous old blue uniform, and your weapons had changed as had your uniforms; and now the men of the American Army who uphold the honor of the flag in the far tropic lands are yet differently armed and differently clad and differently trained; but the spirit that has driven you all to victory has remained forever unchanged. So it is in civil life. As you did not win in a month or a year, but only after long years of hard and dangerous work, so the fight for governmental honesty and efficiency can be won only by the display of similar patience and similar resolution and power of endurance. We need the same type of character now that was needed by the men who with Washington first inagurated the system of free popular government, the system of combined liberty and order here on this continent; that was needed by men who under Lincoln perpetuated the government which has thus been inaugurated in the days of Washington. The qualities essential to good citizenship and to good public service now are in all their essentials exactly the same as in the days when the first Congress met to provide for the establishment of the Union: as in the days, seventy years later, when the Congress met which had to provide for its salvation.

There are many qualities which we need alike in private citizens and in public man, but three above all—three for the lack of which no brilliancy and no genius can atone—and those three are courage, honesty, and common sense.

Got Your Umbrella?

Get out your umbrellas and mackintoshes and elevate your lightning rods, for there are big storms coming, according to the predictions of W. T. Foster, of Washington, D. C., who makes a specialty of forecasting the weather.

His last bulletin reads:

"Among the most dangerous storms of the year will reach their greatest force on or about September 21. These storms will be so general all around the world that a more definite forecast is not necessary. Every one should be prepared for them, although they will not reach all places."

The writer says he expects hurricanes, tornadoes, cloudbursts, snowstorms, blizzards and frosts in localities where such sometimes occur at this season.

Thirty-six years ago the mortality from major surgical operations in London hospitals was about 23 per cent. This has been reduced to 3 per cent by the application of Lister's antiseptic principles.

The excess of male deaths in Chicago is now more than 37 per cent greater than the female deaths in a population which contains only 3.3 per cent excess of males.

The last Monday in July "The Wizard of Oz" began the twenty-fifth week of its remarkable engagement at the Majestic theatre in New York. Notwithstanding the intense heat the theatre was crowded to the doors, and there seems to be no diminution of interest in the remarkable extravaganza. It is one year and four weeks since "The Wizard of Oz" was first produced at the Grand Opera house in Chicago, where it continued throughout all last summer. This remarkable attraction will be one of the principal events of the coming theatrical season in this city.

There are few of the present generation of theater-goers who do not know of Lizzie Evans, who used to delight her audiences in such plays as "Fogg's Ferry," and "Nugg's Landing." After six years in the vaudeville theaters Miss Evans will return to the drama in the well known New England play "Coza Corners," and [illegible] be seen here this coming season at one of the local theaters.

The STAGE

"Arizona," which will be the attraction at the opening of the new Sixth street theater, Oct. 1 and 2, is a drama depicting western life intermingled with a love episode which is sure to win its way to the hearts of everybody. Estrella Bonham, the wife of the colonel of the Eleventh U. S. Cavalry, a woman who is adored by her husband in his rough soldierly fashion, i. e., too much attention to the regiment and not enough to home duties, has almost been led into an entanglement with handsome Captain Hodgman of her husband's staff of officers. An ardent note written by Hodgman to Mrs. Bonham, has been intercepted by Lena Kellar, a servant in the colonel's household (whom this same captain has wronged a year before) and is handed to Lieutenant Denton (also in the colonel's service), an honest, upright young fellow, who is very much in love with Bonita Canby, Mrs. Bonham's younger sister. Young Denton arrives in time to disillusion the colonel's wife of her infatuation of Hodgman, but on the colonel's sudden return, he is placed in the embarrassing position of a person who has attempted to destroy the colonel's happiness, which necessitates his retiring from the army. The scene is now transferred to Canby's ranch, where young Denton upon professing his love for Bonita Canby is admitted to a partnership with the honest old ranchman. The arrival of the Eleventh U. S. Calvalry on a forced march with Colonel Bonham, his wife, Captain Hodgman, and all the principals of the preceding episode crisis, during which a quarrel ensues and Captain Hodgman is shot. A court martial follows in which young Denton is accused of deliberately murdering Captain Hodgman, but upon the confession of Tony Mostana, a vaquero on the ranch, who acknowledged that he shot Captain Hodgman on account of his deception of Lena Kellar, with whom Tony is in love, Denton is exonerated from all blame; Colonel Bonham is enlightened into the true character of the dead captain, and Denton is restored to his place in the army.

SCENE FROM "ARIZONA."

The company which interpretes "Arizona" is the one which has been especially engaged for this production and theater-goers of Coshocton will without doubt have the pleasure of witnessing one of the most finished performances of the season.

F. E. Wise, business manager of the Nellie Long Stock company, is in town completing the arrangements for their appearance at the opera house for one solid week, commencing Monday, Sept. 21, "A Nutmeg Match."

The Fountain Dry Goods Company.

Fountain Items.

The Big Store is the buisiest store of Coshocton today. The hundred of customers that thronged the Fountain Saturday afternoon and evening know by their experience how difficult it was to get waited upon, even though we have a force of thirty people. Well, we are going to have more. We will put 50 sales people behind the counters if necessary to meet the demands of the public. Our constantly increasing business is most gratifying to the management of the Fountain D. G. Co. We believe now most people are glad they have the trading facilities now offered by the Fountain company. We do not believe a single enterprise has been injured by the opening of Coshocton's Big Store—to the contrary new trade is coming to Coshocton. Some people who heretofore have thought it necessary to go out of Coshocton are now being pleased in a most satisfactory way at the Fountain, all for which the Fountain is very thankful. We shall endeavor to conduct the business of the Big Store in such a manner that it will not only command the respect of the people of Coshocton but will bring hundreds of new customers to this market to do their shopping. It is only natural when they come to us for Dry Goods they will also buy Clothing, Boots and Shoes, Groceries, Hardware, Jewelry and many other items from Coshocton's up-to-date merchants. No town in Ohio offers greater trading facilities in all the branches of commercial enterprise than Coshocton.

A Statement of Facts

That cannot be refuted is presented to anyone who will notice the persons wearing shoes sold by us. They cannot fail to be impressed by the elegance of style, the perfection of cut and the general distinctiveness which is bestowed upon every shoe made for us. Ask the ones that wear them.

BRENDEL BROS.,

Cash and One Price. **Fitters of Feet.**

YOU WANT IT.

You feel all knocked out. No appetite, weak, can't get down to work or business. Your stomach out of order and does not digest your food, caused by catarrhal condition there. The inner lining is inflamed and coated with a thick, sticky mucous. The food on entering it also becomes covered with this mucus. Gastric juices cannot then act upon it. It lies there, decomposes, generates gas and you have horrid breath, bloating, dizziness, heart palpitation and many oter distressing symptoms. Unless you dissolve this mucus and treat stomach you cannot hope to be better.

Ho-sen-do Stomach Tablets is the only medicine known that will dissolve this mucus and not injure the stomach. They also act as a curative, increase appetite, stimulate gastric action and remove all catarrhal conditions.

Our treatment is the only common-sense one for the cure of stomach troubles offered. We make a dissolution of the tablet in hot water and by flushing out the stomach with this before eating dissolve the mucus and effect a cure. Truly the greatest stomach remedy of the age. For sale by all druggists.
